

5 Ways to Get Rid of Moles with Vinegar

Mix two parts vinegar and four parts water in a spray bottle.

1

2

Shake until the two mix well to form a strong solution.

3

Head to your lawn, find out where the moles have dug tunnels.

4

Spray directly at the exterior of the hole. Make sure the section of the hole is wet every time you spray.

5

Repeat the exercise every day for a few more days until the moles disappear
